FULL-STACK WEB DEVELOPER

As a Full-Stack Web Developer with a background in Restaurant Management and Tech Retail, I bring a unique blend of skills to the table. I'm a skilled collaborator and leader, with experience managing teams and training others. I'm also adept at managing customer relationships, which I believe is essential to the success of any business. I'm excited to bring these skills to a new opportunity and continue to grow as a developer.

TECHNICAL SKILLS

Javascript (ES6), React, Ruby, Rails, SQL, PostgreSQL, Render, HTML, CSS, Git, RESTful Routing , Debugging tools (ex: pry, byebug, react devtools, debugger, etc)

TECHNICAL PROJECTS

Mardini's Restaurant - Github | Live Site | Demo
A full-stack web application for restaurant ordering that allows customers to place orders and view menu items.
- Built the application using Rails API backend and React front-end, and integrated session data management to allow customers to add items to their carts even if they sign up after adding items.
- Developed RESTful routing conventions to enable CRUD functionality for creating and editing menu items, and used CSS stylesheets and framer-motion to create an visually appealing and dynamic user interface.

Cuisine Creations - Github | Live Site | Demo
A full-stack web application for creating, sharing, and discovering unique recipes that allows users to create and edit their own recipes, as well as add ingredients, steps, and measurements.
- Implemented user authentication and authorization using Ruby on Rails for the backend and React for the frontend to allow users to create and edit their own recipes.
- Designed the application with RESTful routing conventions and CRUD functionality, and used CSS to create a visually appealing and user-friendly interface.

Semi-Addicting Games - Github | Live Site | Demo
A single-page web application that combines two popular games, tic-tac-toe and hangman, using React.
- Integrated React-router-dom, styled-components, and framer-motion to create a visually appealing and user-friendly interface.
- Challenged with integrating both games into a single-page application while maintaining a seamless user experience, and utilized React-router-dom to manage game state and transitions between pages.

PROFESSIONAL EXPERIENCE

Best Buy | Mobile Specialist   San Carlos, CA
May 2017 - June 2019
- Demonstrated exceptional sales skills, achieving an average of $1000 in sales per day and consistently exceeding monthly sales targets by 10%.
